

KAAMESH M

UI/UX Designer | Web Developer | Java Back-End Developer
+91 7339150593 | kaamesh24@gmail.com | Tirunelveli, India | [LinkedIn](#) | [GitHub](#)

CAREER OBJECTIVE

Versatile developer and designer with hands-on experience in UI/UX design, front-end web development, and Java back-end development. Skilled in crafting end-to-end digital products — from Figma wireframes and interactive prototypes to Spring Boot REST APIs and MVC architectures. Proficient in building responsive interfaces, design systems, and full-featured web applications. Strong communicator with written and spoken English proficiency, eager to contribute across all phases of product development in collaborative, fast-paced environments.

TECHNICAL SKILLS

UI/UX Design: Wireframing, Mockups, Prototyping, Design Systems, UI Kit, Auto Layout, Components, Variants, Smart Animate

Design Tools: Figma, Canva

Front-End: HTML5, CSS3, JavaScript, Thymeleaf, Responsive Design

Back-End: Java 17, Spring Boot 3, Spring Data JPA, RESTful APIs, MVC Architecture, Role-Based Access Control

Database & Tools: SQLite, Apache POI, Git, GitHub, GitHub Pages

Languages: English (Written & Spoken), Tamil

PROJECTS

Cinema Ticket Booking — UI/UX Prototype 2024

Figma · Auto Layout · Components · Variants · Smart Animate

- Designed a complete end-to-end UI/UX prototype in Figma covering movie discovery, theatre selection, seat booking, payment flow, and e-ticket confirmation
- Built a reusable UI Kit and Design System with typography, color palette, icons, buttons, movie cards, genre chips, navigation bars, and interactive seat states
- Implemented advanced Figma features: Auto Layout, Components, Variants, Smart Animate, hover effects, and fixed navigation for a polished interactive experience
- Improved UX through clear genre filtering, structured booking flow, and accessible high-contrast visual design

Event Management System — Web Application 2024

Java 17 · Spring Boot 3 · Spring Data JPA · SQLite · Thymeleaf · HTML · CSS · JS

- Built a full-stack web app with role-based access control for Admin and Users — including login, registration, event creation, event booking, attendee management, and event status updates
- Designed RESTful APIs for booking couriers, managing employees, tracking shipments, viewing payments, and updating delivery status
- Developed auto employee assignment logic to allocate the nearest available delivery employee based on destination pincode
- Integrated multi-mode payment processing (UPI, Card, Cash on Delivery) with validation and transaction rollback on failure; generated Excel reports using Apache POI

ACHIEVEMENTS

- TCS CodeVita Round 1 Qualifier — competitive algorithmic problem-solving
- Solved 1,600+ problems on Skillrack | Solved 40+ problems on LeetCode

EDUCATION

National Engineering College, Kovilpatti — B.E. Computer Science & Engineering

2024 – 2028 | CGPA: 7.56
